CEL ARREDI

CEL Arredi è la business unit di CEL Components S.r.l. dedicata allo sviluppo di **sistemi modulari** e **soluzioni d'arredo per collettività in HPL** e materiali compositi.

L'esperienza pluridecennale di CEL Components nella progettazione di pannelli sandwich e materiali innovativi si traduce, in CEL Arredi, in prodotti che uniscono prestazioni tecniche, cura del dettaglio e design Made in Italy.

Gamma decori

Questa selezione di colori e finiture nasce per supportare la progettazione di spazi contemporanei, dove estetica e funzionalità si incontrano in superfici ad alte prestazioni. L'HPL offre resistenza a urti, graffi, umidità e solventi, è facile da pulire e disinfettare e si presta perfettamente anche ad ambienti con elevati standard igienici. La gamma spazia dai neutri essenziali alle tonalità più decise, offrendo soluzioni versatili per ambienti pubblici e privati. Ogni cromia valorizza la luce, le proporzioni e la continuità visiva del progetto.

Le tonalità digitali possono variare rispetto ai campioni reali in base alle impostazioni del monitor, all'illuminazione o alle tolleranze produttive. Si consiglia di chiedere un campione del colore desiderato per una valutazione accurata.

Colori SOLID

Massima libertà di progettazione

Tinte piene e uniformi che definiscono superfici essenziali e contemporanee. I colori solidi rappresentano una base neutra o un accento deciso all'interno del progetto, assicurando continuità visiva e facilità di abbinamento con materiali e finiture diverse. Ideali per spazi ad alta frequentazione, combinano pulizia estetica e resistenza, mantenendo nel tempo l'intensità e la profondità del colore.

Colori SPECIAL

Un’evoluzione dei colori solidi

I colori Special reinterpretano i toni solidi con l’aggiunta di micro-particelle luminose che conferiscono profondità e brillantezza controllata alla superficie. I colori assumono sfumature vibranti, creando giochi di luce raffinati e un effetto contemporaneo ideale per ambienti dal carattere deciso.

Colori METALLIC

Metalli d’ispirazione

Superfici ispirate ai metalli tecnici che donano brillantezza e precisione agli spazi architettonici. Le finiture metalliche riflettono la luce in modo controllato, valorizzando volumi e geometrie con un effetto industriale elegante e raffinato.

Finiture MATERIC

Ampia scelta di decori per un effetto naturale

Texture che riproducono la naturale irregolarità della pietra e di materiali minerali. Le finiture materiche introducono una dimensione tattile che arricchisce il progetto, perfette per ambienti che ricercano solidità, equilibrio ed eleganza contemporanea.

Finiture WOOD

L’essenza del legno

Superfici calde e naturali che richiamano le venature e le tonalità del legno. Le finiture legno combinano comfort visivo e prestazioni tecniche, portando armonia e accoglienza negli spazi senza rinunciare alla durabilità e alla facilità di manutenzione dell’HPL.

Stampe Personalizzate

Decori personalizzati

Decorativi stampati che trasformano la superficie in elemento grafico e narrativo. Le Stampe Personalizzate offrono libertà espressiva e personalizzazione, rendendo ogni progetto unico attraverso pattern, disegni e immagini che dialogano con la materia e la luce.
